
WATER INDUSTRY SPECIFICATION

WIS 4-01-03

**Issue 1
March 2024**

**(Amendment 1 October 2024)
(Page 1 of 2)**

UK Water Industry

Amendment to:
**Specification for hydrostatic pressure testing of
polyethylene and polyethylene barrier water supply
pipelines and sewer rising mains**

This amendment forms an integral part of the Specification and replaces elements of the original as indicated below.

Header The header on the odd numbered pages of Issue 1 published on 28/3/24 referred to WIS 4-03-01 which is incorrect.

 (This was corrected to read WIS 4-01-03 in an updated version of Issue 1 published on the WUK Standards Board's website on 3/4/24).

4.3 Figure 3. Delete the existing Figure 3. Insert the new Figure 3 shown on page 2 below.

7.4 Delete the existing section number and replace it with 7.2.

A.3 Equation A.2. Delete the existing equation A.2. Insert the new equation:

$$Vp = Vp10 * \left(\frac{STP - Static Head}{10} \right) * \left(\frac{L}{100} \right)$$

Equation A.2. Explanatory notes.
After "STP = System Test Pressure (bar)" insert "Static Head = Static head pressure (bar)."
