**SPECIFICATION FOR POLYETHYLENE  
PRESSURE PIPE FOR COLD POTABLE WATER  
(UNDERGROUND USE)**

---

This specification was the forerunner of BS 6572:1985 which contains equivalent technical requirements. The specification number 4-32-02 will remain on file and a number of manufacturers retain BSI Registration for compliance with it.

BS 6572, Specification for blue polyethylene pipes up to nominal size 63 for below ground use for potable water, is now recognised as the lead document and purchase of Kitemarked product conforming to BS 6572 is recommended.

Information and Guidance Notes

SPECIFIC ION FOR POLYETHYLENE  
PRESSURE PIPE FOR COLD POTABLE WATER  
(UNDERGROUND USE)

The following are the parameters of the pipe which are to be used in the design of the pipe. It is assumed that the pipe is to be used in the design of the pipe. It is assumed that the pipe is to be used in the design of the pipe.
